Pastor's Corner

Dear Parishioners and Visitors,

During Holy Time of Lent, we reflect and put into action in our daily lives three Lenten practices: Fasting, Prayer and Almsgiving.

As you know, **fasting** has a lot to do with eating. We should not always be eating, and we should not always be fasting. Feasting must be followed by fasting. When we remove the fasting and keep the feasting, we eventually get fat and sick. Balance is the ancient secret to a long and flourishing life. Fasting follows feasting. Feasting follows fasting. Our eating must be *intermittent*, not steady. Food is celebration of life. Every single culture in the world celebrates with large feasts. That's normal, and it is good. But religions have always reminded us that we must balance our feasting with fasting – time of "atonement", "repentance", or "cleansing". These ideas are ancient and time-tested. Should you eat lots of food on your birthday? Absolutely. Should you eat lots of food at wedding? Absolutely. These are times to celebrate and indulge. But there is also a time to fast. We cannot feast all the time. It won't work. It doesn't work. You may fear the prospect of fasting if you've never made it part of your lifestyle. So it is good to remember how common it is. There are no lasting negative side effects to regular fasting. Quite the contrary. It appears to have extraordinary health benefits. Fasting (and feasting) have been a major Christian discipline since the very beginning. Jesus fasted. The Apostles fasted. Early Christians fasted. The Church Fathers and all the greatest Saints have treated fasting as the natural companion to prayer. Now, it is our time!

Viva Cristo Rey!
